

- Regarding participation in the Touring the Sacred Lands and Origin of
Wagyu -

Participants who can confirm that they have been in Japan for at least one week since arriving from their country of origin or any trips abroad may enter the cowshed(s) in this tour. Those who can confirm that they do not currently work with artiodactyl/ cloven-hoofed animals such as sheep, cows, and pigs or have recently come into contact with these animals may also enter the cowshed(s) in this tour.

If you cannot confirm these areas, we ask you for your understanding and cooperation as we will only allow you to view the cowshed(s) and pastures from a distance and hear from the livestock owners and tour guides.
